

PUMPERS

 **rosenbauer**
Firefighting Technology

The Pumper That Pulls It All Together.

Firefighters are only as dependable as their equipment. That's why Rosenbauer manufactures and integrates each apparatus as a single unit, meaning your pumper will work seamlessly, every time. You can depend on it.

Custom Enclosed Top Mount Pumper

1500 GPM Pump
750-Gallon Poly Tank
Foam System
10 KW Hydraulic Generator

Control in all weather conditions.

A custom enclosed operator's panel protects operator from outdoor weather conditions and allows for better scene visibility.

Storage that keeps equipment in place.

Large equipment storage compartments and a Lo-Pro power ladder rack ensure that everything you need arrives at the scene, right in place.

Visibly simple rear controls.

The rear control panel features "LogiColor" design and electric valves, so this pumper has never been easier to operate.

Storage for every need.

Custom designed compartments and storage provisions efficiently store all your department's equipment.

Custom Rear Mount Pumper

1250 GPM Pump
1000-Gallon Poly Tank
Foam System
7.5 KW Hydraulic Generator

More options from front to back.

With front bumper features including a Q-Siren, inlet connection and easy to use booster reel, the options you need are provided from every angle.

Easy up-top controls.

A top mount control panel with hinged cover allows easy loading of speedlays and backboard.

Custom Top Mount Pumper

- 1500 GPM Pump
- 1000-Gallon Poly Tank
- Foam System
- 10 KW Generator

Custom Top Mount Pumper

1250 GPM Pump
1000-Gallon Poly Tank
Foam System
8 KW Diesel Generator

Highly visible, all the way to the scene.

The combination of rear reflective chevron striping and reflective detailing on the vehicle doors and rub rail makes the unit noticeable wherever it goes.

Rapid hose operation.

The top control pumper features easy to use controls with turn-to-lock handles and low mount speedlays, making deploying and reloading hose fast and simple.

Custom Rear Mount Pump and Roll Pumper

1250 GPM Pump
750-Gallon Tank
Foam System
8 KW Hydraulic Generator

Improved controls and storage.

Rear control panels in black thermoplastic or stainless steel feature a straightforward, convenient layout. Large compartments provide all the storage space you need, which isn't reduced by the end mount power ladder rack.

Functional, weather-protected interior.

An enclosed operator's panel protects the operator from outside weather conditions, improves scene visibility and comfortably seats four.

Safer storage.

Easy to reach, customized compartments and storage provisions provide an easier, safer way to access equipment.

Commercial Enclosed Top Mount Pumper

1500 GPM Pump
1000-Gallon Poly Tank
Foam System
10 KW Hydraulic Generator

Commercial Rear Mount Pumper

1250 GPM Pump
1000-Gallon Poly Tank
Foam System
7.5 KW Hydraulic Generator

Convenient equipment access.

Pullout hose and equipment trays, tip-down trays and slide-in access to ladders and hard suction provide easy access to frequently used equipment.

Commercial 4-Door Side Mount Pumper

1500 GPM Pump
1250-Gallon Poly Tank
Foam System
5 KW Gas Generator

Easy to navigate controls.

Traditional side control panels in black thermoplastic or stainless steel feature an easy to use panel layout and convenient controls.

Flexible storage space.

Spacious compartments provide large storage areas which aren't reduced by the end mount power ladder. An optional dump valve is also available.

Simple, timesaving controls.

Black thermoplastic and stainless steel top control panels offer good visibility, simple operation and easy pump access.

Economical standard designs.

Standard pumper designs provide reliable, durable and efficient trucks with ample storage for most firefighting equipment.
