

# Now You're Prepared For Anything.

Every rescue situation is different. But Rosenbauer's variety of body configurations and storage options gives you control no matter what. With custom, ergonomic designs, each rescue vehicle offers fast, easy equipment access and solid body strength. With these tools at hand, there's no situation you can't handle.

## Non Walk-In Rescue with Four-Door Commercial Cab

15 KW Hydraulic Generator  
240 Volt Perimeter Lighting with Removable Tripod Lights  
Four-Bottle Cascade System with Dual Enclosed Fill Station  
Large Full-Depth, Transverse and Rooftop Compartments

### **Light yet durable body style.**

An all-aluminum body creates a lightweight truck that's extremely durable and corrosion resistant.

### **Safe and easy equipment storage.**

Heavy-duty shelves and pullout or tip-down trays provide safe, easy access to equipment.

### Custom Rescue Pumper

1250 GPM Pump  
500-Gallon Tank  
Extruded Aluminum Construction

#### **Every option for every rescue need.**

This well thought out rescue pumper comes fully equipped with generator, cascade system, foam system and preconnects. Large full-depth, full-height compartment construction and rooftop and custom storage provisions offer space for all your important equipment (see back cover).

**Command Rescue with  
Commercial Chassis**

***Solid body construction that's built to last.***

Heavy-duty all stainless steel construction provides the ultimate in strength and corrosion protection.

***Comfortable, functional command area.***

A custom designed command area features climate control for all-incident and all-weather command operations.

## Medium Non Walk-in Rescue

### ***More options for mid-size departments.***

This medium aluminum rescue is ideal for mid-size fire departments to carry all of their rescue equipment. Choose from a full line of options to customize this unit to your needs.

Non Walk-In Rescue

***Small unit with maximum space.***

This aluminum rescue provides ample storage space for most rescue equipment. Add optional features such as shelves, trays, generators, floodlights and a cascade system to fully equip this versatile, highly functional unit.
